## ENGINE HOURS – NEW ADDITIONS

Continuing with our FleetOutlook upgrades for construction; units designated as Machines will have new fields in the Map Tooltip and in the Vehicle Summary. The Map Tool tip will now include a field for “Engine Hours Today”, and the Vehicle Summary Tab will have a new column labeled, “Engine Hours Today”. This is in addition to the updates in our previous release that contains the lifetime engine hours.

**Note:** To learn how to identify your unit type as a Machine, see [FleetOutlook Help – Edit Vehicle](#).

## LANDMARKS CAN NOW BE HIDDEN FROM DISPLAY

When creating a Landmark, you will now have the option to hide it from the map display. This will be helpful when you have created a very large landmark and you don't want the shading to cover your map. By selecting "Display As Transparent", the landmark will still maintain all of its functionality but will not be shown on the maps.

The screenshot shows the 'Add Landmark' dialog box with the following fields and options:

- Name:** Headquarters
- Shape:** Circle (selected), Polygon, Place Name
- Landmark Category:** (empty dropdown)
- Icon:** Default (dropdown)
- Radius:** 500 (spinner) feet
- Worksite Landmark:** ☒
- GeoFence (no stop required):** ☐
- Display As Transparent:** ☐ (highlighted with a red rectangle)
- Anchor Point:**
  - Address:** (selected), Lat/Lon
  - Street Number:** 123
  - Street Name:** Main
  - City:** Anywhere
  - State:** VA
  - Zip:** 12345
  - Country:** (empty)
- Buttons:** Show on Map, Save As New

## REPORT UPDATES

### THE DRIVER PERFORMANCE REPORT WILL NOW INCLUDE VEHICLE ID'S

When generating the Driver Performance Report, the results will now include the vehicle ID that the driver was assigned to during the reporting interval.

### UNKNOWN DRIVERS WILL NOW INCLUDE THE VEHICLE ID

For all Driver based reports; If a driver was not assigned to a vehicle during the reporting interval, the result will label the driver as "UNKNOWN". Those results will now include the Vehicle ID in the Driver ID column. Example: Unknown (vehicle1).

### SELECTING UPTO THREE INDIVIDUAL DRIVERS OR VEHICLES FOR REPORTS

Previously, you could choose either a group or an individual driver or vehicle for your report scope. You will now be able to choose up to three individual drivers or vehicles from the Scope window for your report results.

### ADDRESS HYPERLINK ADDED TO SEVERAL REPORTS

A previous enhancement to the Trip Report enabled you to click the Destination Address to see that location on the map. We have now added this same enhancement to the following reports:

- Device Integrity Report
- Idle Report
- Location Activity Report
- Posted Speed Violation Report
- Stop Report
- Speeding Report
- Unauthorized Usage Report

## OPEN NOTES FIELD FOR VEHICLES

In FleetOutlook Admin, you will be able to add custom notes to your vehicles.

The screenshot displays the 'Edit Vehicle' window. On the left, there are input fields for Vehicle ID (358400010095370), Vehicle Name (411 DODGE 2007), Driver (none), Device (MDN:6660095370 ESN:6660095370), Vehicle Icon (a red car icon), Vehicle Status (Active), Vehicle Category, and Unit Type (Vehicle). A 'Notes' field is highlighted with a blue border. On the right, there are tabs for Details, Fuel, Group, Odo, Eng, and Vehi. The 'Details' tab is active, showing fields for VIN, License Plate, License State, Make, Model, Year, Engine, and Transmission. At the bottom, there is a status bar with 'Last modified: 05-Mar-2012 09:52:41 AM EST' and 'Created: 05-Mar-2012 09:52:41 AM EST'. A 'Save' button is located in the bottom right corner.

Figure 4: Edit Vehicle Window

## MINOR ENHANCEMENTS AND FIXES

Alert Performance Improvement	Updated effectiveness of alerts triggering off of the correct vehicle category
Public Template Report Improvement	Improved the ability for a public template report to generate only for the specific user's group access
Report Shading Rules	Corrected several issues with the report shading rules.

---

## TECHNICAL SUPPORT

### **SUPPORTING YOUR SOLUTION EVERY TIME. ALL THE TIME.**

CalAmp does more than provide you with application services – we also supply you with an always-available resource for attention, answers and insights if you have questions about your solution.

CalAmp's Technical Support team stands beside you to ensure any concerns you have with any element of your solution – application, hardware or operations – are addressed quickly and completely.

There are two ways to contact the Technical Support Team:

Phone:	866.456.7522
Support Email:	<a href="mailto:solutionsupport@calamp.com">solutionsupport@calamp.com</a>
